...

409.11. Definitions--PND.

G. *Open space.* Common space generally intended for passive recreation and not improved with a building, structure, vehicular travel lane, driveway, street, sidewalk, or parking area. Open space may include pedestrian ways, bike paths, trails interconnecting open space areas; undisturbed natural areas, woodlands, preservation areas; community facilities; landscaped grounds, buffers; playgrounds and tot lots; swimming and boating areas. Open space shall not include yards within individual residential lots, yards less than 30 feet wide between buildings, lands occupied by tennis courts, golf courses, and buildings.

409.17. Off-street parking--PND.

A. The number, design, location and construction of parking lots, bays, spaces and drives shall conform to the applicable requirements of appendix A, sections 506 and 507 of the zoning ordinance.

1. Parking areas shall be planted with trees a minimum of two inches in caliper measured six inches above ground level, so that there is at least one tree per ten parking spaces within the parking lot. Such trees must be protected by curbing or other means against damage by vehicles. A minimum planting area, equivalent to 162 square feet per tree, shall be provided.

2. Parking areas shall have a landscaped island at each end of each row of vehicle spaces. No more than 15 spaces shall be laid out without an intermediate landscape island. Such planting islands shall be not less than ten feet wide in the direction parallel to the row and not less than 20 feet long in the direction perpendicular to the row. Each such island shall have a suitable poured-in-place concrete curb, or

409.18. Landscaping and screening--PND.

A. *Screening of uses.* Commercial, institutional, and community uses shall be screened from residential uses within and abutting the planned neighborhood development by a bufferyard 20 feet in width containing a minimum of three canopy trees, six understory trees, and nine shrubs per 100 feet of length (or an amount creating an equivalent effect and approved with the landscape plan) along the perimeter of the lot line abutting a residential use.

B. *Screening along public roadways.* Uses within a planned neighborhood development which abut an arterial street as defined in appendix B, section 502 shall be screened by a bufferyard of 20 feet in width containing a minimum of three canopy trees, six understory trees and nine shrubs per 100 feet of frontage (or an amount creating an equivalent effect and approved with the landscape plan). In lieu of strict compliance with the above bufferyard requirements, a developer may submit a detailed landscaping plan that will afford a degree of buffering and screening comparable to that provided by these regulations in making use of existing and new vegetation. For developments utilizing more than ten percent existing vegetation as a density bonus credit, a certified arborist shall provide a detailed description of the existing vegetation with notation of specimen trees, to certify compliance. The arborist report shall be accompanied by the proposed measures for ensuring preservation during and after construction in accordance with the preservation criteria stated in the Town of Luray Landscape Preservation and Planting Guide.

D. *Screening of refuse collection facilities.* Uses, except single-family homes within a planned neighborhood development shall provide secure, safe, and sanitary facilities for the storage and pickup of refuse. Such facilities shall be convenient to collection and shall be appropriate to the type and size of use being served. All refuse storage facilities shall be screened on three sides by a solid wooden fence or masonry wall and a tight evergreen hedge. The fourth side shall be angled to minimize the view of the refuse collection facility or shall be screened by an opaque gate made of durable materials. The screening shall be of sufficient height and design to effectively screen the facility from the view from nearby residential uses, streets, adjacent properties, and recreational facilities.
